

P.V AUTOMATIC ROUND BOTTLE LABELLING MACHINE

An automatic round bottle labeling machine is an essential piece of equipment for high-volume production lines in industries such as food and beverage, pharmaceuticals, and cosmetics. This machine streamlines the labeling process, ensuring efficiency and accuracy in applying labels to cylindrical containers. The machine's operation is automated, allowing for continuous labeling without the need for manual intervention. Bottles are fed into the machine via a conveyor system, where they are precisely aligned for label application. The machine then uses advanced technology to apply labels uniformly around the bottle, ensuring a secure and aesthetically pleasing finish.

Model	PV-RBLM130A
Product Type	Round bottle labeling machine
Bottle Diameter (mm)	20-100
Bottle Height (mm)	25-300
Bottle Type	Round
Label Max. Diameter (mm)	200
Label Width (mm)	10-140
Label Length (mm)	15-200
Voltage (V)	240
Power (W)	500
Speed (times/min)	20-50 (Approx.)
Accuracy (mm)	+/- 1
Dimension (mm)	1430*1050*940
Weight (Kg)	100.00
