

## P.V FOOT OPERATED SEALERS

Foot-operated sealing machines are efficient tools designed for easy sealing of various types of packaging. They are ideal for small to medium-scale operations and are commonly used in food packaging for items such as snacks, spices, and baked goods. These machines also have applications in crafts and retail products. Operated by foot pedals, they provide hands-free sealing, allowing users to multitask and enhance productivity. Their compact design makes them suitable for kitchens, workshops, and small businesses with limited space.

Model	PVFS - 300AL	PVFS - 400AL
