

## P.V MANUAL LUG CAP SEALING MACHINE

The Manual Lug Cap Sealing Machine is a crucial tool for food and beverage producers who need to securely seal jars and bottles with lug caps. It is commonly used in canning and packaging operations for products such as sauces, jams, and beverages. This machine ensures a tight and reliable seal, preserving freshness and preventing contamination. Constructed from high-quality materials, the machine is designed for durability and ease of use. Its manual operation provides operators with precise control, allowing for consistent sealing across various container sizes. This is especially beneficial for small-scale producers, artisanal food makers, and home canners who require flexibility and efficiency in their production processes. The Manual Lug Cap Sealing Machine is compact, making it easy to fit into limited workspaces while still delivering robust performance.

Model	PV-LCSM90M
Product Type	Cap Sealing Machine
Packaging Material	Sealing Metal Caps
Sealing Size (mm)	Up to 90
Material	Stainless Steel
Capacity (bottles/min)	10 (Approx.)
Dimension (mm)	380*275*213 (Approx.)
Weight (kg)	18.0 (Approx.)
