

P.V Automatic Powder Vertical Form Fill Seal Packaging Machine

The Automatic Powder Vertical Form Fill Seal Packaging Machine is designed to efficiently package powdered products in various industries. Its versatility makes it ideal for packaging food items like spices and flour, pharmaceuticals such as powdered medications, and industrial materials like chemicals. The machine automates the entire process, from forming pouches to precise filling and sealing, ensuring consistency and reducing labor costs.

Model	PV-VFFS1000PO
Product Type	Automatic Vertical Form Fill Seal Packaging Machine
Filling Type	Auger Filling System
Hopper Capacity	20 ltr
Pouch Capacity	1 - 10gm ,10 - 50gm, 50 - 250gm, 250 - 1000gm (Different types of Machines)
Film Size	40 - 450 mm Width , 40-300 mm Length
Sealing Type	Three Side/ Center Seal/Four side seal
Packing Material	PP/PE/Laminated film/Aluminium film
Speed	6 to 35 packets/min (depending on Product density)
Compressed Air	6 CFM @ 6 BAR
Weight	600kg(Approx.)
