

P.V CONTINUOUS BAND SEALERS

Continuous band sealing machines are designed for efficiently sealing various products in bulk. They are ideal for packaging food items such as snacks, grains, and frozen goods, as well as non-food products like chemicals and pet food. These machines automate the sealing process, ensuring consistent and reliable results. Their continuous operation allows for high-speed packaging, making them suitable for production lines and large-scale operations. With adjustable temperature settings, they can accommodate different materials, including plastic and foil bags.

Model	PVCS-3HAL	PVCS-3HAL SS	PVCS-3VAL	PVCS-3VAL SS
Product Type	Horizontal Band Sealer	Horizontal Band Sealer	Vertical Band Sealer	Vertical Band Sealer
Body	Mild Steel	Stainless Steel	Mild Steel	Stainless Steel
Sealing Width (mm)	6-12	6-12	6-12	6-12
Temperature (°C)	0-300	0-300	0-300	0-300
Package Material	Laminated/Polyethylene Pouches	Laminated/Polyethylene Pouches	Laminated/Polyethylene Pouches	Laminated/Polyethylene Pouches
Voltage (V)	240	240	240	240
Power (W)	500	500	525	180
Dimension (mm)	800*380*550	800*380*550	860*420*560	860*420*560
Weight (Kg)	20.00	20.00	25.00	25.00
